Reading Recovery

What Is Reading Recovery?

Reading Recovery is a highly effective short-term intervention of one-on-one tutoring for low-achieving first graders. The intervention is most effective when it is available to all students who need it and is used as a supplement to good classroom teaching. In Reading Recovery, individual students receive a half-hour lesson each school day for 12 to 20 weeks with a specially trained Reading Recovery teacher. As soon as students can read within the average range of their class and demonstrate that they can continue to achieve, their lessons are discontinued, and new students begin individual instruction.
